"Shamus O'Brien," a story of Irish patriotism. One of the most interesting dramatic selections ever given. Hear it at the M. E. church, April 19.

Master Garry Peck entertained a number of his friends at a birthday party Monday afternoon. The time was pleasantly spent in playing games and other amusements.

Scott B. Williams, editor of the Cloudercroft Cloudercroft, was here last week on his way to Santa Fe in company with some friends. Mr. Williams is in the real estate and insurance business, and runs the newspaper for fun.

Mrs. Virgie Block's school will close Friday, April 21, and on the evening of that date an entertainment will be given at the school house—Cedar Grove. The literary will be held at the same time, instead of on the following night, which is the regular date. Everybody is invited.

The call for the Republican county convention to be held at Willard at one o'clock next Saturday for the purpose of electing nine delegates to the state convention, has appeared, signed by Federico Chavez, chairman pro tem, and R. L. Hitt, secretary pro tem. There are to be 43 delegates as follows: Tajique 3, Torreon 4, Manzano 6, Cienega 1, Panta 2, Willard 4, Estancia 2, Moriarty 2, Palma 3, Pinos Wells 3, Encino 2, Abo 1, Lucy 1, McIntosh 1, Mountain 2, Jaramillo 1, Cedarvale 1, Lucero 1, Duran 1.

County Agent Harwell was in Santa Fe Monday, where he interviewed the state engineer, as a result of which two state officials are to come here and in conjunction with a man from the state college make pumping tests of wells in the county, and analyses of the water. In order to get this done it was necessary to agree that the expenses of the men while in the county would be borne locally. It is thought the work will consume two or three weeks. Upon Mr. Harwell's return from Santa Fe a few Estancia men were hastily got together, who agreed that the proposed work is very important and that this locality will bear its share of the expenses with great cheerfulness. The few present pledged \$42.50, with the understanding that the subscriptions would be increased by others, the necessary amount being prorated among the subscribers. An official report as to the capabilities of some of the wells of the county, together with an official report as to the quality of the waters, will be worth a great deal to the county, particularly in view of some statements that have been made.

WOMAN'S CLUB

The Woman's Club met April 6 at the Club room without a hostess, with good attendance. The Club will give a series of plays this summer at the Club room, the first one to be April 14, "The Economical Boomerang," the second one, "Whiskers," later in the month.

A delicious surprise luncheon was served by Mesdames Burton, Kelly and Clark, also some delicious fudge was brought in by Miss Porter. Everyone enjoyed this meeting greatly. Next meeting to be at the home of Mrs. Clark, over the Clark & Co. store, April 21. All members urged to attend.

On returning home one April evening Mr. Dabblenton encounters the maid going out with a note from Mrs. Dabblenton to Miss Stichter, the dressmaker, asking her to come and help her with the alterations of a skirt. Mr. Dabblenton tells the maid to wait until he talks with his wife. On entering the sitting room he finds Mrs. Dabblenton looking over the skirt. He then tells of meeting a friend, Jack Pimpers, who told him his wife did all her own dressmaking. Mr. Dabblenton asks his wife to economize and do all her sewing, to which she agrees if he will be her model, so he agrees to be. Then the fun begins. Come and see how this "Economical Boomerang" ends. One of the most interesting laughable one act comedies of the season.

Cast of Characters:
Mr. Dabblenton, who wants his wife to economize, Mr. Parrett, Mrs. Dabblenton, who agrees to economize, Mrs. Parrett.

Mr. and Mrs. Plover, the newlyweds, Mr. and Mrs. Burton.

MR. YOUNG MAN ABOUT TO ENTER COLLEGE

Have you considered the importance of acquiring your college education in the region where you expect to live and earn and build after college days are over?

DO YOU EXPECT TO LIVE IN THE GREAT SOUTHWEST?

Then keep in mind that while getting your education at the University of New Mexico, you are also learning men conditions, resources, opportunities. You are at all times in touch with and learning about your field of future operations. You are storing up material worth time and money to you after college days are over.

If you go to an eastern college, these practical lessons must be learned AFTER, not DURING your college years. Why not get both at once—and save valuable time?

Investigate Opportunity for YOU at the NEW MEXICO STATE UNIVERSITY

1916-1917 Catalog now ready. Address D. R. Boyd, President, Albuquerque, N. M.

On Friday night, April 14, at 8 o'clock for the benefit of Library the Woman's Club will give a play, "The Economical Boomerang." Admission 15c and 25c.

Wanted—Men to sell nursery stock. Steady employment; paid weekly. All stock guaranteed. Established 40 years.—Ottawa Star Nurseries, Ottawa, Kansas.

A. W. Lytle was in town the first of the week delivering meal which he ground himself from white corn which he raised himself. The meal is of first class quality.

The Estancia Lumber Co. management is planning to move the big planing mill down from the mountains and locate it on the railroad grounds near their loading platform.

The Young People's Society will give an elocution entertainment at the M. E. church, April 19th, presenting J. Olen Leach, Reader and Impersonator. Come and help a good cause.

The biggest crowd that has assembled in the valley for some time was at the McIntosh sale Monday. The bidding was spirited and everything sold well—some things extraordinarily well. The cows with calves brought \$66 average, the 2-year-old steers \$39, and the yearling steers \$28. It was a cash sale, and the way everything was gobbled up shows that there is plenty of money available.

Geo. P. Larnard Piano Co. Sell Pianos—Player Pianos Are You Interested?

Since the year 1900 Geo. P. Larnard has been established in the piano business in Albuquerque, and since that date has sold more pianos to the people of New Mexico than any other person in the state.

January 1, 1914, Mr. Larnard conceived the idea that pianos could be sold on a more satisfactory basis to both the purchaser and himself by eliminating the big items of store rent, partnership affairs, clerk hire and other incidental expenses. Since that date every piano purchaser has shared in the saving of expenses. All pianos are shipped direct from the factory to purchaser, and Mr. Larnard, accompanied by Mr. Leon R. Allen, Piano Tuner, now travels overland continually and calls personally on anyone who desires information about pianos and players, and especially those who may be desirous of learning about his new and successful selling plans.

When you become interested in purchasing a piano write to Mr. Geo. P. Larnard personally and you will receive a prompt reply and the satisfaction that you desire when you place your hard earned dollars in the purchase of a piano for your home and little ones. Mail this today.
